

Toyota Tundra Chattanooga

Seriously. I need a Toyota Tundra Chattanooga expert to help me shop for a Toyota truck in the Chattanooga area. If you know where to find such a person, let me know. I need someone who knows the truck deals. I would prefer someone who has Toyota Tundra experience. Specific truck knowledge would be best. Things like how the engine works and how much horsepower it has are examples of truck knowledge that would be helpful.

About the Author

I am a truck guy.
