

Portable Storage

Portable storage for moving is convenient, stress free, and smart! Portable storage units make your move much easier. You can pack one or more rooms inside a portable storage unit. You decide when the packing gets done and when the portable storage units get picked up to be taken to your destination.

You can have one or more portable storage units delivered directly to your home. You can pack each room separately inside a portable storage unit or combine rooms in one unit. You can pack your belongings according to room, season, or person. You can pack everything at your own pace. There is no worry about rushing to return a rental truck.

You can have portable storage units delivered to you. There is no worry about renting a truck, paying for gas, returning a rental truck, or paying for insurance. The portable storage unit is designed to be placed where you need and want it to make loading faster and easier. The floor of the portable storage unit is approximately six inches off the ground so you do not have to push your boxes up a ramp. There is no climbing up a ramp and you lessen your chance of injury with ground level loading.

Once you have packed your portable storage unit, you can lock it and know your belongings are safe. No one has a key to the portable storage unit except yourself. The same company who delivered your portable storage unit will pick it up and deliver it to your destination.

Once your portable storage units have arrived at your destination, you can unpack at your leisure. Having packed the portable storage units yourself, you will know exactly what to unpack first. The best part is you will not have boxes and clutter sitting around for weeks after a move because everything is in one place in the portable storage unit.

You can have a stress free move with portable storage units. You are on your own timetable. You can pack at leisure and have the company pick up your storage unit to deliver when you are ready. You can have your portable storage units delivered immediately to your destination or ask the company to store your unit until you are ready for it. One phone call is all it takes to have your units delivered to your destination.
